Synthetic twelve-lead ECG

Illustrative test data only - not for clinical interpretation.

Test patient: Else Test Lauridsen | Test CPR: 020191-9990

2026-01-14 10:00:00 to 10:00:01 +01:00

500 samples/lead | 500 Hz | 25 mm/s | 10 mm/mV

Every trace is plotted from the exact samples in the FHIR example.

All leads share the start time. Last sample: +0.998 s; interval end: +1.000 s.
